**Katie once tripped over a pizza box and straight into a life-changing epiphany. No one can laugh at you, if you laugh at yourself first. AH HAH!**

Quickly she realized that humor defuses tension, calms conflict, instills courage, and charms clients.

With new tools and confidence, Katie stepped into a leadership role at work. She joined Toastmasters to refine and polish her speaking ability and in 1996, she won the Toastmaster District 2 Humorous Speech Contest by coming out of the closet as a math nerd.

Katie's life's mission is harnessing the magical power of humor for all human kind.
