

Meet International Inspirational Speaker and Cancer Graduate

Jocelyn Hastie

Jocelyn leads by example—empowering and inspiring those affected by traumatic injury or illness to rise up from their challenges and stride confidently into their authenticity and vulnerability. Whether the trauma is their own, or that of their loved ones, clients or patients, audiences contemplate these concepts during her signature talk:

A-Plus

The 4 “A’s” that put and keep life on track

Awareness Acceptance
Accountability Appreciation

We’ll explore how these four ideas lead to a fifth “A” that will transform your life. She will share how facing her mortality shattered her misconceptions about true strength. Jocelyn will challenge you to

- Recognize when independence becomes a curse rather than a blessing
- Discover how to offer, invite, and accept support from your loved ones.

A CPA/CGA with 30+ years of business experience, she chose lifestyle over career. Jocelyn deliberately detoured from the career fast track to partner with her horses, building a sanctuary committed to helping others to learn to heal and nurture themselves and their loved ones.

“I lived most of my life believing that being vulnerable made me appear weak or needy and repelled others. My recent cancer experience showed me that people did run when they saw my vulnerability, but they ran towards me instead of away from me.”

~ JOCELYN HASTIE

“We found the presentation to be a personal and moving experience that kept us engaged from start to finish. Jocelyn is a talented speaker who motivates the audience with authenticity and bravery.”
