*"Your story told me I too can get past all my pains, hurts, obstacles and disappointments. Thank you for helping me take the chains off of my past. I AM on the move, no STOPPING NOW. I can see clearly now." ~ F. Dudley*

*"Yvette's story is amazing, and most people would never be able to overcome what she overcame. You need to really work with her, you definitely want to work with her. She's an amazing person and she's also powerful and she walks her talk" ~ Patricia L (Manifesting Strategies)*

*"Yvette McDowell is one to watch. She is a walking, talking poster child of taking imperfect inspired action to get known and paid on the stages that matters most for her message. If you are leading a women's conference and looking for someone awesome to be a part of your movement, I would recommend that you get in touch with Yvette because she is on fire."*
